Great things to know about Rutgers 2020
Rutgers, The State University of New Jersey, is a top national research university and the state of New Jersey’s preeminent public institution of higher education. An academic, health, and research powerhouse, Rutgers is a university of opportunity and a changemaker for the greater good, locally and globally. You’ll find us at our main locations in three New Jersey cities and at our health care facilities, field stations, and additional sites throughout the state.

- Rutgers University–New Brunswick
- Rutgers Biomedical and Health Sciences
- Rutgers University–Newark
- Rutgers University–Camden

71,000+ students

University of Opportunity
34% of 1st-year students are first-generation college undergraduates

Choice of Top Students
33% of 1st-year students reporting class rank were among the top 10% in their high schools, affirming that Rutgers attracts outstanding students.

150+ Undergraduate Majors
400+ Graduate Programs

Tops in R&D
Rutgers drives innovation, expending more in research and development than all other New Jersey universities and colleges combined

Premier Education, Comprehensive University

Rutgers University–New Brunswick

The flagship of Rutgers, The State University of New Jersey, is a Top 100 World University, a Top 25 Public National University, and the Top Ranked Public University in the New York/New Jersey metropolitan region. Boundless academic choices. 5 campuses, from bucolic to bustling city. Big Ten, big-time Scarlet Knights sports. Outstanding students from around the globe.

Hottest Rutgers–New Brunswick Alums

New Materials for Renewable Energy

Jing Li (right) and her research team, with a laboratory in the new Chemistry and Chemical Biology building, focus on the development of advanced materials that show promise for developing clean and renewable energy applications in such areas as photovoltaics, solid-state lighting, thermoelectrics, gas storage, and chemical sensing.

Clean Room for Advanced Fabricating

The School of Engineering’s new Micro-Nanofabrication and Characterization Facility is just one of the many high-tech research laboratories at Rutgers–New Brunswick.

Navigator to the Rescue

The Rutgers-developed Navigator drone can seamlessly transition from flying to maneuvering underwater. In a single, quick deployment, the Navigator can aid in water rescues and complete infrastructure safety tests and other tasks that previously required a helicopter, boat, and underwater equipment. Rutgers start-up company SubUAS is bringing the Navigator to the military, commercial, and recreational markets.

Faculty Excellence

Andrew Carnegie Fellow, Pamela McElwee: Environmental expert is a lead author of the 2019 United Nations global assessment on biodiversity.

Presidental Early Career Award for Scientists and Engineers, Saman Zonouz: Expert in protecting critical U.S. infrastructure from cyber-attack earns the nation’s highest government honor supporting outstanding early career researchers.

Robert Koch Gold Medal, Martin J. Blaser: World expert on the human microbiome received the award for his life’s work on the detrimental and advantageous of microscopic organisms—primarily bacteria—that live on and in the human body.

$706.3 million

That’s how much Rutgers–New Brunswick and the aligned Rutgers Biomedical and Health Sciences devoted to research and development in FY 2018, placing it 19th among public national universities—National Science Foundation.

39

Faculty in the National Academies of Sciences, Engineering, and Medicine. Physicist Gabriel Kotliar and biochemist and molecular biologist Manayi Inouye are the newest members elected to the National Academy of Sciences, one of the nation’s highest scientific honors.

Life-Changing Research

Only at Rutgers–New Brunswick

The Center for Ocean Observing Leadership launched its 500th sensor-laden robotic undersea glider in 2019. The internationally renowned center collects ocean data to shed light on hurricanes, climate change, commercial fishing, and more.

The nation’s go-to resource for insight on women in the political sphere, the Eagleton Institute’s Center for American Women and Politics appears in the national media on a weekly basis.

The RCSB Protein Data Bank—the world’s only open-access digital archive of 3D biomolecular structures—is accessed by researchers across the globe as they pursue drug discovery and biological and medical research.

That’s how many biospecimens are stored at RUCDR Infinite Biologics, the world’s largest university-based cell and DNA biobank for genetic research on mental health and developmental disorders; drug and alcohol abuse; diabetes; and digestive, liver, and kidney diseases.

20 million

That’s how many Rutgers–New Brunswick is New Jersey’s land-grant university.
Rutgers Biomedical and Health Sciences

Rutgers prepares tomorrow’s health care providers at New Jersey’s leading schools for medicine, dentistry, nursing, pharmacy, public health, and health professions—all organized under the umbrella of Rutgers Biomedical and Health Sciences. Our health care professionals provide outstanding care to patients across New Jersey.

“It isn’t every day that you find a historic cemetery. It’s a real window into the past.”

—CNN quoting professor Kimberlee Moran in a story on intact 18th-century burials—ultimately hundreds—unexpectedly found at a Philadelphia construction site. Moran, director of forensics at Rutgers–Camden, cofounded the Arch Street Project to study the archaeological site—a project involving eight institutions and more than 60 scientists “hoping to glean a better idea of what life was like in colonial Philadelphia.”
Founded in 1766, Rutgers, The State University of New Jersey, is the 8th-oldest institution of higher learning in the United States. It is the nation’s sole university that is a colonial college, a land-grant institution, and a premier public research university. Rutgers plays a crucial role in New Jersey by educating students, creating jobs, contributing billions to the economy, and discovering solutions to real-world problems.

More than

530,000

Rutgers alumni

Rutgers has more than 530,000 living alumni; more than half live in New Jersey, fueling the region’s economy.
Historic Gift
Marlene Brands (’80) (right) committed $30 million—among Rutgers’ largest gifts ever—to launch the Rutgers Initiative for Youth Behavioral Health and Well-Being, which will provide behavioral health services for young people and families.

Rutgers Giving Community

Recent Major Gifts
- Prudential Financial gave $10 million to the Honors Living-Learning Community at Rutgers University-Newark to create the Prudential Scholars Program for Newark residents. It is the largest gift in Rutgers–Newark’s history.
- The Andrew W. Mellon Foundation made a $1.5 million grant to fund City Verses: Elevating Voices Through Jazz and Poetry, a collaboration of Rutgers–Newark and the New Jersey Performing Arts Center.
- Ronald W. (’62) and Patricia Ann Bainton pledged $1.5 million to fund facility enhancements to the Rutgers Baseball/Softball Complex.
- William (’93,’97) and Lois Dwyer made a bequest intention of $3 million to the School of Management and Labor Relations, in recognition of Rutgers’ transformative role in his life.
- Ronald J. (’70) and Barbara (’70) Rodkin pledged $1.5 million to fund facility enhancements to the Rutgers Baseball/Softball Complex.
- Sandy Stewart (’81,’87) made a $2.5 million bequest intention to create the Sandy J. Stewart Endowed Equipment and Instruments Fund at Rutgers University–Camden, in recognition of Stewart’s transformative role in his life.
- Founded by Gary M. Cohen (’80,’83) and supported by his interest to contribute $1 million, the Rutgers Institute for Corporate Social Innovation will embed interdisciplinary coursework into the Rutgers Business School curriculum.

Anonymous Gift
An anonymous donor gave $25 million to the Rutgers Cancer Institute of New Jersey to establish the Cancer Immunology and Metabolism Center of Excellence, which will enable the institute to break new ground and develop new therapies that will change the face of cancer treatment forever.
